

## BUSINESS ENERGY LITIGATION FUNDING

### SPECIALIST FINANCE FOR LITIGATION PRACTICES

SpectraLegal provide innovative funding solutions to the legal sector. None more so than our new funding product tailored specifically for claims arising out of the non-disclosed commission in business energy.

Disbursement expenditure is a common source of pain for law firms and this drain on a firm's resources can inhibit their ability to grow and maximise awards for its clients in a timely fashion. Our solution offers you the help and support you need to acquire and run this new and exciting caseload. With innovative structuring we are able to offer a package which will not impact on the day to day finances of the firm and only requires repayment once the firm has received funds from the conclusion of the case.

In addition to this, our solution also benefits from A rated insurance from one of the largest insurers in the market, thereby ensuring that your client has peace of mind for all eventualities.
